BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORT

MEGHA ENGINEERING & INFRASTRUCTURES LIMITED (MEIL)

Financial Year 2025–26 | 1 April 2025 – 31 March 2026

Document status	Reporting boundary	Data status
Comprehensive draft / data-collection template	To be confirmed: standalone or consolidated	Not a verified final company disclosure

IMPORTANT: Company-specific quantitative values are marked “Data required”. Populate them from audited records, approved internal systems and validated evidence. Do not present estimates or illustrative values as MEIL actuals.

Prepared as a detailed BRSR reporting draft and ESG data-collection template. Confirm legal applicability, current SEBI requirements, reporting boundary and assurance scope before publication.

Version 1.0 | Approval status: Pending internal validation

How to use this report

Replace each “Data required” field with verified FY 2025–26 data or mark “Not applicable” with a reason.

Do not use zero to represent missing data. Explain estimates, exclusions, boundaries and limitations.

Maintain source records, calculation files, emission-factor versions, evidence IDs and approval history.

Confirm the exact BRSR format and applicability for the entity and FY 2025–26 with the Company Secretary / Legal team.

This is a draft, not assurance, legal advice or a claim that MEIL is required to file BRSR.

Reporting framework note

SEBI BRSR uses Section A (General Disclosures), Section B (Management and Process Disclosures) and Section C (Principle-wise Performance Disclosures). Section C covers nine NGRBC principles with Essential and Leadership Indicators. BRSR Core is a separate subset of KPIs with its own applicability and assurance provisions.

Executive summary

Summary indicator	FY 2025–26	FY 2024–25	Owner / evidence
Reporting boundary	Data required	Data required	Company Secretary / Finance
Turnover (■ crore)	Data required	Data required	Finance
Employees and workers	Data required	Data required	HR / contractors
Scope 1 emissions (tCO■e)	Data required	Data required	EHS / Energy
Scope 2 emissions (tCO■e)	Data required	Data required	Facilities / Energy
Scope 3 emissions (tCO■e)	Data required	Data required	Procurement / Logistics
Energy consumption (GJ)	Data required	Data required	Energy managers
Water withdrawal (kL)	Data required	Data required	Sites / EHS
Waste generated (tonnes)	Data required	Data required	Sites / EHS
CSR expenditure (■)	Data required	Data required	CSR / Finance
Work-related fatalities	Data required	Data required	HSE / HR
BRSR Core assurance status	Confirm applicability	Data required	Company Secretary / assurance provider

Draft management narrative: During FY 2025–26, MEIL should describe how responsible business conduct is integrated into project execution, procurement, workforce safety, environmental management, customer engagement and community relations. Finalize this narrative only after management review and evidence validation.

SECTION A — GENERAL DISCLOSURES

A1. Details of the reporting entity

Disclosure	FY 2025–26 information	Evidence / validation
CIN	U45202TG2006PLC050271 — verify current master data	MCA / Company Secretary
Entity name	Megha Engineering & Infrastructures Limited	Corporate records
Year of incorporation	2006 — confirm exact date	MCA master data
Registered office	S-2, Technocrat Industrial Estate, Balanagar, Hyderabad – 500 037, Telangana — reconfirm current address	Current company filing
Corporate office	Data required	Company records
Website	https://www.meil.in	Corporate website
Contact email / telephone	Data required	Company Secretary
Financial year	1 April 2025 – 31 March 2026	Finance
Stock exchange listing status	Confirm applicability; do not assume listed status	Company Secretary
Paid-up capital (■)	Data required	Audited statements
BRSR contact person	Data required	Company Secretary / ESG lead
Reporting boundary	Standalone / consolidated / defined operational control — select and explain	Approved methodology
Assurance provider and type	Data required / not applicable with reason	Engagement / applicability review

A2. Business activities accounting for 90% of turnover

No.	Main activity	Business activity	% turnover	Evidence
1	Infrastructure / EPC	Engineering, procurement and construction — validate turnover mix	Data required	Finance
2	Water / irrigation	Water infrastructure and irrigation, if within boundary	Data required	Finance / BU
3	Transportation	Roads, tunnels and transport infrastructure, if within boundary	Data required	Finance / BU
4	Power / energy	Power and energy infrastructure, if within boundary	Data required	Finance / BU
5	Other material activity	Complete from audited classification	Data required	Finance

A3. Products and services accounting for 90% of turnover

No.	Product / service	NIC code	% turnover	Evidence
1	Engineering, procurement and construction services	Data required	Data required	Audited turnover mapping
2	Water / irrigation infrastructure services	Data required	Data required	Audited turnover mapping
3	Transportation infrastructure services	Data required	Data required	Audited turnover mapping
4	Power / energy / industrial infrastructure services	Data required	Data required	Audited turnover mapping
5	Other services	Data required	Data required	Audited turnover mapping

A4. Operations and geographic footprint

Location	Plants	Offices	Active project sites	Total	Evidence
National	Data required	Data required	Data required	Data required	Project / admin master
International	Data required	Data required	Data required	Data required	International business / admin

Market disclosure	FY 2025–26 result	Evidence
Number of Indian states served	Data required	Project master
Number of countries served	Data required	Project master
Exports as % of turnover	Data required	Finance / tax records
Customer types	Government / public authorities / private clients / others — quantify	Contracts / CRM

A5. Employees and workers at year-end

Category	Total	Male count	Male %	Female count	Female %	Other / not disclosed if tracked	Source
Permanent employees	Data required	Data required	Data required	Data required	Data required	Data required	HRIS
Other-than-permanent employees	Data required	Data required	Data required	Data required	Data required	Data required	HR / contractor records
Total employees	Data required	Data required	Data required	Data required	Data required	Data required	HRIS
Permanent workers	Data required	Data required	Data required	Data required	Data required	Data required	Site records
Other-than-permanent workers	Data required	Data required	Data required	Data required	Data required	Data required	Site / contractor records
Total workers	Data required	Data required	Data required	Data required	Data required	Data required	Site records

A6. Differently abled employees and workers

Category	Total	Male	Female	Other / not disclosed	% of population	Evidence
Permanent employees	Data required	Data required	Data required	Data required	Data required	HR / confidential records
Other-than-permanent employees	Data required	Data required	Data required	Data required	Data required	HR / contractor records
Permanent workers	Data required	Data required	Data required	Data required	Data required	Site records
Other-than-permanent workers	Data required	Data required	Data required	Data required	Data required	Site records

A7. Women representation and turnover

Group	Total	Women count	Women %	Evidence
Board of Directors	Data required	Data required	Data required	Board records
Key Management Personnel	Data required	Data required	Data required	HR / Company Secretary

Population	Gender	FY25–26 turnover rate	FY24–25 rate	FY23–24 rate	Methodology
Permanent employees	Male / Female / Total	Data required	Data required	Data required	Document numerator / denominator
Permanent workers	Male / Female / Total	Data required	Data required	Data required	Document numerator / denominator

A8. Holding, subsidiary, associate and JV entities

Entity name	Relationship	Shareholding %	In reporting boundary?	BR initiative participation?	Evidence
Olectra Greentech Limited	Confirm relationship	Data required	Data required	Data required	Group/legal records
Evey Trans Private Limited	Confirm subsidiary status / boundary	Data required	Data required	Data required	Group/legal records
ICOMM Tele Limited	Confirm relationship	Data required	Data required	Data required	Group/legal records
Megha Gas	Confirm legal entity / relationship	Data required	Data required	Data required	Group/legal records
Drillmec S.p.A.	Confirm relationship / boundary	Data required	Data required	Data required	Group/legal records
Other entities / JVs	Complete legal-entity schedule	Data required	Data required	Data required	Company Secretary

The names above are public group-company examples, not a complete verified FY 2025–26 subsidiary schedule. Reconcile ownership, legal relationships and boundary against company records.

A9. CSR details

Disclosure	FY25–26	FY24–25	Evidence
CSR applicable under Companies Act, 2013?	Yes / No — confirm legal test	Data required	Company Secretary / Finance
Turnover (■)	Data required	Data required	Audited accounts
Net worth (■)	Data required	Data required	Audited accounts
Average net profit for CSR computation (■)	Data required	Data required	CSR calculation
CSR obligation (■)	Data required	Data required	CSR calculation
CSR expenditure (■)	Data required	Data required	Ledger / CSR report
Unspent amount / transfer (■)	Data required	Data required	Statutory records

CSR activity	Location / beneficiaries	Amount (■)	Output / outcome	Evidence
Education / skills	Data required	Data required	Data required	CSR project reports
Health / sanitation	Data required	Data required	Data required	CSR project reports
Community development / other	Data required	Data required	Data required	CSR project reports

A10. Complaints and grievance redressal

Stakeholder	Mechanism? / URL	FY25–26 received	Pending at 31 Mar 2026	FY24–25 received / pending	Remarks
Communities	Data required	Data required	Data required	Data required	Community relations
Investors / shareholders	Data required	Data required	Data required	Data required	Company Secretary
Employees / workers	Data required	Data required	Data required	Data required	HR / ethics
Customers	Data required	Data required	Data required	Data required	Customer service
Value-chain partners	Data required	Data required	Data required	Data required	Procurement
Other stakeholders	Data required	Data required	Data required	Data required	Relevant function

A11. Material responsible business conduct issues

Material issue	Risk / opportunity	Rationale	Mitigation / opportunity plan	Financial implication	Owner
Climate / GHG emissions	Risk / opportunity	Fuel/electricity, transition and physical risks	Data required	Data required	ESG / Risk
Water availability / discharge	Risk / opportunity	Site dependence / local stress	Data required	Data required	EHS / Projects
Worker health and safety	Risk / opportunity	Construction / engineering hazards	Data required	Data required	HSE / HR
Supply-chain labour / human rights	Risk / opportunity	Contractor and supplier exposure	Data required	Data required	Procurement / HR
Ethics / tender integrity	Risk / opportunity	Tendering, contracts and third parties	Data required	Data required	Compliance / Legal
Community / land / resettlement	Risk / opportunity	Project footprint and impacts	Data required	Data required	Projects / CSR
Waste / materials / circularity	Risk / opportunity	Construction and hazardous waste	Data required	Data required	EHS / Procurement
Quality / customer safety	Risk / opportunity	Infrastructure performance / public impact	Data required	Data required	Quality / Operations

SECTION B — MANAGEMENT AND PROCESS DISCLOSURES

Answer from approved policies, procedures, records and management review. Mark “Yes” only where the current policy exists and approval, implementation and review can be evidenced.

B1. Policy and management processes

Disclosure	P1	P2	P3	P4	P5	P6	P7	P8	P9	Evidence
Policy covers principle / core elements?	Data required	Data required	Data required	Data required	Data required	Data required	Data required	Data required	Data required	Approved policies
Policy approved by Board / competent authority?	Data required	Data required	Data required	Data required	Data required	Data required	Data required	Data required	Data required	Board / delegated approvals
Policy translated into procedures?	Data required	Data required	Data required	Data required	Data required	Data required	Data required	Data required	Data required	SOPs / process maps
Policy extends to value-chain partners?	Data required	Data required	Data required	Data required	Data required	Data required	Data required	Data required	Data required	Supplier / contractor clauses
Standards / certifications mapped to principle	Data required	Data required	Data required	Data required	Data required	Data required	Data required	Data required	Data required	Certificates register
Specific commitments, goals and timelines	Data required	Data required	Data required	Data required	Data required	Data required	Data required	Data required	Data required	ESG targets register
Performance against commitments / reasons for gaps	Data required	Data required	Data required	Data required	Data required	Data required	Data required	Data required	Data required	KPI review

B2. Governance, leadership and oversight

Disclosure	Required response	Evidence
Director statement on ESG challenges, targets and achievements	Draft after leadership input; describe FY performance and next-year priorities	Signed management statement
Highest authority responsible for ESG policy oversight	Name, designation, authority and reporting line — Data required	Board charter / org chart
Board committee / director responsible for sustainability	Yes / No; name, mandate, meetings — Data required	Committee charter / minutes
Review of NGRBC principles	Authority, frequency, date and corrective action by principle	Review minutes
Independent assessment / assurance	Indicators covered, provider, standard, scope, opinion and limitations	Assurance report

B3. NGRBC review register

Principle	Review undertaken?	Review authority	Frequency	Last review date	Corrective actions
P1 — Ethics, transparency and accountability	Data required	Data required	Annual / half-yearly / quarterly / other	Data required	Data required
P2 — Sustainable and safe goods/services	Data required	Data required	Annual / half-yearly / quarterly / other	Data required	Data required
P3 — Employee well-being	Data required	Data required	Annual / half-yearly / quarterly / other	Data required	Data required
P4 — Stakeholder engagement	Data required	Data required	Annual / half-yearly / quarterly / other	Data required	Data required
P5 — Human rights	Data required	Data required	Annual / half-yearly / quarterly / other	Data required	Data required
P6 — Environment	Data required	Data required	Annual / half-yearly / quarterly / other	Data required	Data required
P7 — Responsible public policy	Data required	Data required	Annual / half-yearly / quarterly / other	Data required	Data required
P8 — Inclusive growth and equitable development	Data required	Data required	Annual / half-yearly / quarterly / other	Data required	Data required
P9 — Customer value and responsibility	Data required	Data required	Annual / half-yearly / quarterly / other	Data required	Data required

B4. Governance and control systems

System / control	Coverage / description	Owner	FY25–26 effectiveness evidence	Gaps / actions
Whistle-blower / ethics mechanism	Data required	Compliance / Legal	Data required	Data required
Anti-bribery / anti-corruption controls	Data required	Compliance / Procurement	Data required	Data required
Conflict-of-interest declarations	Data required	HR / Legal	Data required	Data required
Supplier due diligence	Data required	Procurement	Data required	Data required
Human-rights due diligence	Data required	HR / Legal / Projects	Data required	Data required
Environmental compliance system	Data required	EHS	Data required	Data required
Occupational health and safety	Data required	HSE	Data required	Data required
Cybersecurity / customer data	Data required	IT / InfoSec	Data required	Data required
Business continuity / enterprise risk	Data required	Risk / Operations	Data required	Data required

SECTION C — PRINCIPLE-WISE PERFORMANCE DISCLOSURES

The indicator topics below are a detailed working checklist, not a replacement for the exact current SEBI question wording. Reconcile question numbers, definitions, units, applicability and guidance before filing.

Principle 1 — Ethics, transparency and accountability

Class	Indicator topic	FY25–26 result	Prior-year comparator	Applicability / method	Evidence / owner
Essential	Training and awareness on NGRBC principles	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Fines / penalties / disciplinary actions for corruption	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Anti-corruption policy and complaints	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Conflict-of-interest cases involving directors / KMP	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Corrective actions for fines / penalties	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Leadership	Value-chain partner ethics awareness	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Leadership	Additional responsible lobbying / ethics disclosures	Data required	Data required	Applicable / NA with reason	Evidence reference / owner

Narrative / remediation: describe policies, implementation, performance, material gaps, corrective action and targets. Leadership indicators should be completed where relevant and supported by reliable evidence.

Principle 2 — Sustainable and safe goods/services

Class	Indicator topic	FY25–26 result	Prior-year comparator	Applicability / method	Evidence / owner
Essential	Life-cycle assessment and significant impacts	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Extended Producer Responsibility where applicable	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Recycled / reused / reclaimed input materials	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Products / packaging reclaimed and recovered	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Environmental/social supply-chain impacts	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Leadership	Sustainable sourcing and circularity outcomes	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Leadership	Product stewardship improvements	Data required	Data required	Applicable / NA with reason	Evidence reference / owner

Narrative / remediation: describe policies, implementation, performance, material gaps, corrective action and targets. Leadership indicators should be completed where relevant and supported by reliable evidence.

Principle 3 — Employee well-being

Class	Indicator topic	FY25–26 result	Prior-year comparator	Applicability / method	Evidence / owner
Essential	Well-being measures for employees and workers	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Retirement benefits and coverage	Data required	Data required	Applicable / NA with reason	Evidence reference / owner

Class	Indicator topic	FY25–26 result	Prior-year comparator	Applicability / method	Evidence / owner
Essential	Accessibility and equal opportunity	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Safety management system and hazards	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Fatalities, injuries and LTIFR	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Training, performance review and grievances	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Leadership	Well-being, career development and value-chain initiatives	Data required	Data required	Applicable / NA with reason	Evidence reference / owner

Narrative / remediation: describe policies, implementation, performance, material gaps, corrective action and targets. Leadership indicators should be completed where relevant and supported by reliable evidence.

Principle 4 — Stakeholder engagement

Class	Indicator topic	FY25–26 result	Prior-year comparator	Applicability / method	Evidence / owner
Essential	Stakeholder identification and engagement frequency	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Vulnerable / marginalized stakeholder groups	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Leadership	Engagement outcomes and actions	Data required	Data required	Applicable / NA with reason	Evidence reference / owner

Narrative / remediation: describe policies, implementation, performance, material gaps, corrective action and targets. Leadership indicators should be completed where relevant and supported by reliable evidence.

Principle 5 — Human rights

Class	Indicator topic	FY25–26 result	Prior-year comparator	Applicability / method	Evidence / owner
Essential	Human-rights policy and due diligence	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Minimum / living wage and wage payment	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Human-rights complaints and cases	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Human-rights training	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Premises assessed for human-rights risks	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Leadership	Impact assessments and remediation outcomes	Data required	Data required	Applicable / NA with reason	Evidence reference / owner

Narrative / remediation: describe policies, implementation, performance, material gaps, corrective action and targets. Leadership indicators should be completed where relevant and supported by reliable evidence.

Principle 6 — Environment

Class	Indicator topic	FY25–26 result	Prior-year comparator	Applicability / method	Evidence / owner
Essential	Energy consumption and intensity	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Renewable energy consumption / share	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Water withdrawal, consumption and discharge	Data required	Data required	Applicable / NA with reason	Evidence reference / owner

Class	Indicator topic	FY25–26 result	Prior-year comparator	Applicability / method	Evidence / owner
Essential	Water intensity	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Scope 1 / Scope 2 emissions and intensity	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	GHG reduction initiatives	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Air emissions other than GHG where relevant	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Waste generation, recovery and disposal	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Environmental compliance / penalties	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	EIA and mitigation measures	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Leadership	Water-stress site disclosures	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Leadership	Climate risk / opportunities and transition plans	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Leadership	Biodiversity / restoration / resource efficiency	Data required	Data required	Applicable / NA with reason	Evidence reference / owner

Narrative / remediation: describe policies, implementation, performance, material gaps, corrective action and targets. Leadership indicators should be completed where relevant and supported by reliable evidence.

Principle 7 — Responsible public policy

Class	Indicator topic	FY25–26 result	Prior-year comparator	Applicability / method	Evidence / owner
Essential	Trade and industry association memberships	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Advocacy positions and responsible policy engagement	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Leadership	Transparency of public-policy advocacy	Data required	Data required	Applicable / NA with reason	Evidence reference / owner

Narrative / remediation: describe policies, implementation, performance, material gaps, corrective action and targets. Leadership indicators should be completed where relevant and supported by reliable evidence.

Principle 8 — Inclusive growth and equitable development

Class	Indicator topic	FY25–26 result	Prior-year comparator	Applicability / method	Evidence / owner
Essential	Social impact assessments	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Rehabilitation and resettlement	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	CSR projects and beneficiaries	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Inclusive growth / local procurement	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Relevant IP arising from disadvantaged groups	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Leadership	Social impact and inclusive development outcomes	Data required	Data required	Applicable / NA with reason	Evidence reference / owner

Narrative / remediation: describe policies, implementation, performance, material gaps, corrective action and targets. Leadership indicators should be completed where relevant and supported by reliable evidence.

Principle 9 — Customer value and responsibility

Class	Indicator topic	FY25–26 result	Prior-year comparator	Applicability / method	Evidence / owner
Essential	Consumer complaints and recalls where applicable	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Service information, accessibility and safety	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Data privacy / cybersecurity complaints	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Essential	Advertising, customer information and satisfaction	Data required	Data required	Applicable / NA with reason	Evidence reference / owner
Leadership	Responsible marketing and customer education	Data required	Data required	Applicable / NA with reason	Evidence reference / owner

Narrative / remediation: describe policies, implementation, performance, material gaps, corrective action and targets. Leadership indicators should be completed where relevant and supported by reliable evidence.

DETAILED ENVIRONMENTAL DISCLOSURES — GHG INVENTORY

Use a consistent company-approved boundary and method. Retain activity data, units, factor source/version/year, formula, conversion, exclusions, estimation method and approval. Report emissions in tCO■e and gas-wise breakdown where available / required.

P6 Essential Indicator — Scope 1 direct emissions

Scope 1 covers direct emissions from owned or controlled sources: fuel combustion, process emissions and fugitive releases. Report carbon capture separately where applicable.

Source / activity	Activity data	Unit	Factor value	Factor unit	Emissions (tCO■e)	Evidence
Diesel — stationary combustion	Data required	L / kg	Data required	kg CO■e/unit	Data required	Invoices / generator logs
Diesel — mobile combustion	Data required	L	Data required	kg CO■e/L	Data required	Fleet fuel logs
Petrol	Data required	L	Data required	kg CO■e/L	Data required	Fuel invoices
Natural gas / PNG / CNG	Data required	SCM / kg / GJ	Data required	kg CO■e/unit	Data required	Meters / supplier bills
LPG	Data required	kg / cylinders	Data required	kg CO■e/unit	Data required	Purchase records
Coal / furnace oil / other fuel	Data required	kg / L / GJ	Data required	kg CO■e/unit	Data required	Fuel records
Process emissions	Data required	Process-specific	Data required	kg CO■e/unit	Data required	Process / lab records
Refrigerants / fugitive gases	Data required	kg by gas	Data required	GWP / factor	Data required	Service / top-up logs
Fire suppression / other fugitive sources	Data required	kg by gas	Data required	GWP / factor	Data required	Maintenance logs
Carbon capture deduction if applicable	Data required	tonnes CO■	Data required	Approved method	Data required	Capture records
TOTAL SCOPE 1	—	—	—	—	Data required	Reconcile to inventory

Scope 1 gas-wise breakdown

Gas	Quantity (t gas)	GWP basis	Emissions (tCO■e)	Method / source
CO■	Data required	Data required	Data required	Data required

Gas	Quantity (t gas)	GWP basis	Emissions (tCO■e)	Method / source
CH■	Data required	Data required	Data required	Data required
N■O	Data required	Data required	Data required	Data required
HFCs	Data required	Data required	Data required	Data required
PFCs	Data required	Data required	Data required	Data required
SF■	Data required	Data required	Data required	Data required
NF■	Data required	Data required	Data required	Data required
TOTAL	—	—	Data required	Reconcile to Scope 1 total

Scope 1 calculation ledger

Record ID	Site / project	Source	Quantity	Unit	Factor	Factor source/version/year	kg CO■e	tCO■e	Evidence ID	Reviewer/status
S1-001	Data required	Diesel	Data required	L	Data required	Data required	Calculated	Calculated	EVD-...	Data required
S1-002	Data required	Natural gas	Data required	SCM	Data required	Data required	Calculated	Calculated	EVD-...	Data required
S1-003	Data required	Refrigerant leakage	Data required	kg	Data required	Data required	Calculated	Calculated	EVD-...	Data required

Formula: emissions (kg CO■e) = activity data × applicable factor, with correct unit conversions and any required GWP. Divide kg CO■e by 1,000 to convert to tonnes.

Scope 2 — Purchased energy emissions

Scope 2 covers emissions associated with generation of purchased/acquired electricity, steam, heating and cooling. State location-based and/or market-based method as applicable and document supplier-specific instruments or factors.

Energy source	Consumption	Unit	Factor	Factor unit	Emissions (tCO■e)	Evidence / method
Purchased grid electricity	Data required	kWh / MWh	Data required	kg CO■e/kWh	Data required	Utility bills / meters / validated factor
Renewable electricity contract / certificates	Data required	kWh / MWh	Data required	As applicable	Data required	Contracts / certificates / retirement
Purchased steam	Data required	GJ / tonnes	Data required	kg CO■e/unit	Data required	Supplier statement
Purchased heating	Data required	GJ / MWh	Data required	kg CO■e/unit	Data required	Supplier statement
Purchased cooling / chilled water	Data required	kWh cooling / GJ	Data required	kg CO■e/unit	Data required	Supplier statement
TOTAL SCOPE 2	—	—	—	—	Data required	Reconcile to inventory

Scope 2 calculation ledger

Record ID	Site / project	Energy type	Consumption	Unit	Factor	Factor source/version	Method	tCO■e	Evidence ID
S2-001	Data required	Grid electricity	Data required	kWh	Data required	CEA version applicable to period	Location-based	Calculated	EVD-...
S2-002	Data required	Purchased steam	Data required	GJ	Data required	Supplier / approved source	As applicable	Calculated	EVD-...

For Indian grid electricity, select and document the applicable CEA database/version for the reporting period. Do not reuse an old factor without confirming suitability.

Scope 3 — Other indirect value-chain emissions

Screen all 15 GHG Protocol categories for relevance, materiality, data availability and boundary. For excluded categories, state the reason and disclose estimates / limitations.

Cat.	Category	Screening prompt	Preferred activity data / method	FY25–26 emissions (tCO■e)
1	Purchased goods and services	Materials, subcontracted services, consumables	Spend / mass / supplier-specific data	Data required
2	Capital goods	Construction plant, machinery, capital equipment	Spend / mass / supplier-specific data	Data required
3	Fuel- and energy-related activities	Upstream fuel and energy not included in Scope 1/2	Fuel / energy quantities	Data required
4	Upstream transportation and distribution	Inbound logistics and supplier-to-site freight	Tonnes-km / distance / mode	Data required
5	Waste generated in operations	Waste treatment and disposal	Waste mass by type / route	Data required
6	Business travel	Air, rail, road, hotel stays	Distance / nights / mode	Data required
7	Employee commuting	Travel to and from work	Survey / distance / mode / headcount	Data required
8	Upstream leased assets	Leased assets not in Scope 1/2	Energy / operational data	Data required
9	Downstream transportation and distribution	Outbound freight / distribution	Tonnes-km / distance / mode	Data required
10	Processing of sold products	Downstream processing, if relevant	Product / process data	Data required
11	Use of sold products	Use-phase emissions, if relevant	Product use / lifetime assumptions	Data required
12	End-of-life treatment of sold products	Disposal / recycling at end of life	Material composition / waste route	Data required
13	Downstream leased assets	Assets leased to others, not in Scope 1/2	Asset energy / operations	Data required
14	Franchises	Franchise operations, if applicable	Franchise activity data	Data required
15	Investments	Investment-related emissions where applicable	Investment / investee data	Data required

Scope 3 calculation ledger

Category	Supplier / project	Activity data	Unit	Method	Factor source/ version	tCO■e	Coverage / assumptions	Evidence
Purchased goods/services	Data required	Data required	■ / kg / tonne	Supplier-specific / average / spend-based	Data required	Calculated	Data required	EVD-...
Capital goods	Data required	Data required	■ / kg / tonne	Supplier-specific / average / spend-based	Data required	Calculated	Data required	EVD-...
Upstream fuel / energy	Data required	Data required	L / kWh / GJ	Activity-based	Data required	Calculated	Data required	EVD-...
Upstream transport	Data required	Data required	tonne-km	Distance / mode	Data required	Calculated	Data required	EVD-...
Waste generated	Data required	Data required	kg / tonne by route	Waste-route factors	Data required	Calculated	Data required	EVD-...
Business travel	Data required	Data required	km / passenger-km / nights	Distance-based	Data required	Calculated	Data required	EVD-...
Employee commuting	Data required	Data required	km / passenger-km	Survey / distance-based	Data required	Calculated	Data required	EVD-...
Other relevant categories	Data required	Data required	Category-specific	Category-specific	Data required	Calculated	Data required	EVD-...

Category	Relevant?	Included?	Reason if excluded	Coverage %	Uncertainty / method	Improvement action
1 — Purchased goods and services	Yes / No	Yes / No	Data required	Data required	Low / medium / high; explain	Data required
2 — Capital goods	Yes / No	Yes / No	Data required	Data required	Low / medium / high; explain	Data required
3 — Fuel- and energy-related activities	Yes / No	Yes / No	Data required	Data required	Low / medium / high; explain	Data required
4 — Upstream transportation and distribution	Yes / No	Yes / No	Data required	Data required	Low / medium / high; explain	Data required
5 — Waste generated in operations	Yes / No	Yes / No	Data required	Data required	Low / medium / high; explain	Data required
6 — Business travel	Yes / No	Yes / No	Data required	Data required	Low / medium / high; explain	Data required
7 — Employee commuting	Yes / No	Yes / No	Data required	Data required	Low / medium / high; explain	Data required
8 — Upstream leased assets	Yes / No	Yes / No	Data required	Data required	Low / medium / high; explain	Data required
9 — Downstream transportation and distribution	Yes / No	Yes / No	Data required	Data required	Low / medium / high; explain	Data required
10 — Processing of sold products	Yes / No	Yes / No	Data required	Data required	Low / medium / high; explain	Data required
11 — Use of sold products	Yes / No	Yes / No	Data required	Data required	Low / medium / high; explain	Data required
12 — End-of-life treatment of sold products	Yes / No	Yes / No	Data required	Data required	Low / medium / high; explain	Data required
13 — Downstream leased assets	Yes / No	Yes / No	Data required	Data required	Low / medium / high; explain	Data required
14 — Franchises	Yes / No	Yes / No	Data required	Data required	Low / medium / high; explain	Data required
15 — Investments	Yes / No	Yes / No	Data required	Data required	Low / medium / high; explain	Data required

GHG totals, intensity and reduction initiatives

Metric	FY25–26	FY24–25	Unit / formula	Evidence
Scope 1 gross emissions	Data required	Data required	tCO■e	Calculation ledger
Scope 2 gross emissions	Data required	Data required	tCO■e; state method	Energy records
Scope 3 gross emissions	Data required	Data required	tCO■e; category inventory	Supplier / activity records
Total GHG emissions	Data required	Data required	Scope 1 + 2 + 3	Reconcile totals
Revenue	Data required	Data required	■ crore	Audited statements
GHG intensity per turnover	Data required	Data required	Selected consistent denominator	Disclose formula
Optional project-output intensity	Data required	Data required	Selected metric	Explain relevance
Reduction from base year	Data required	Data required	% and tCO■e	Base year / recalculation policy
Renewable electricity share	Data required	Data required	% total electricity	Meter / contract data
Offsets / avoided emissions	Data required	Data required	Report separately; do not silently net	Project evidence

Reduction initiatives

Initiative	Baseline	Target / due date	FY25–26 outcome	Estimated reduction	Method / evidence	Owner
Fleet efficiency / route optimization	Data required	Data required	Data required	Data required	Fuel / distance data	Transport
Electrification of equipment / vehicles	Data required	Data required	Data required	Data required	Asset / energy records	Operations
Renewable electricity procurement	Data required	Data required	Data required	Data required	Meters / contracts	Facilities
Energy efficiency in plants / offices	Data required	Data required	Data required	Data required	Energy audits	Facilities
Low-carbon materials / procurement	Data required	Data required	Data required	Data required	Supplier / LCA data	Procurement
Waste prevention / recycling	Data required	Data required	Data required	Data required	Waste manifests	EHS

Illustrative arithmetic only, not MEIL data: hypothetical fuel consumption of 10,000 L × a hypothetical approved factor of 2.68 kg CO■e/L = 26,800 kg = 26.8 tCO■e. Actual reporting must use a validated factor and correct source/unit for each activity.

Principle 6 — Energy, water, waste and environment

Energy consumption and intensity

Metric	FY25–26	FY24–25	Unit / formula	Evidence
Electricity consumption	Data required	Data required	kWh / GJ	Utility bills / meters
Fuel consumption	Data required	Data required	GJ, by fuel	Fuel logs / invoices
Energy from other sources	Data required	Data required	GJ	Supplier / generation records
Total energy consumption	Data required	Data required	Sum of energy sources	Reconciliation
Renewable energy consumption	Data required	Data required	kWh / GJ	Certificates / meters
Energy intensity per turnover	Data required	Data required	Energy / turnover	Finance + energy records
Optional intensity metric	Data required	Data required	Selected output metric	Explain denominator
Independent assessment / assurance	Data required	Data required	Yes/No, scope, provider	Report

Water withdrawal, consumption and discharge

Source	Withdrawal (kL)	Consumption (kL)	Discharge (kL)	Water type	Water-stress status	Evidence / permit
Surface water	Data required	Data required	Data required	Data required	Data required	Meter / permission
Groundwater	Data required	Data required	Data required	Data required	Data required	Meter / permits
Third-party / municipal	Data required	Data required	Data required	Data required	Data required	Invoices
Rainwater harvested	Data required	Data required	N/A	Data required	Data required	Harvesting records
Recycled / reused water	Data required	Data required	Data required	Data required	Data required	Treatment / reuse logs
TOTAL	Data required	Data required	Data required	—	—	Reconcile

Water indicator	FY25–26	FY24–25	Formula / notes
Water intensity per turnover	Data required	Data required	State numerator / denominator
Intensity per project output	Data required	Data required	Choose consistent metric
Sites in water-stressed areas	Data required	Data required	Identify sites / method / source
Conservation initiatives	Data required	Data required	Baseline, outcome, evidence

Waste generation and management

Waste type	Generated (tonnes)	Reused / recycled	Recovered / co-processed	Incinerated	Landfilled / other	Evidence / vendor
Hazardous waste	Data required	Data required	Data required	Data required	Data required	Manifests / authorization
Non-hazardous waste	Data required	Data required	Data required	Data required	Data required	Weighbridge / vendor records
Construction & demolition	Data required	Data required	Data required	Data required	Data required	Site records
E-waste	Data required	Data required	Data required	Data required	Data required	Authorized recycler certificates
Battery / used oil / scrap	Data required	Data required	Data required	Data required	Data required	Manifests
TOTAL	Data required	Data required	Data required	Data required	Data required	Reconcile

Environmental disclosure	FY25–26 result	Location / project	Corrective action	Evidence
NOx / SOx / particulate matter where relevant	Data required	Data required	Data required	Monitoring reports
Environmental notices / sanctions / fines	Data required	Data required	Data required	Legal register
Environmental impact assessments required / conducted	Data required	Data required	Data required	EIA / approvals
Environmental clearance conditions monitored	Data required	Data required	Data required	Compliance reports
Biodiversity impacts / mitigation where relevant	Data required	Data required	Data required	Assessment / restoration records

Principle 3 — Employee well-being, safety and development

Workforce indicator	Employees	Workers	Prior year	Definition / evidence
Health insurance coverage	Data required	Data required	Data required	Eligible / covered population
Accident insurance coverage	Data required	Data required	Data required	Policy records
Maternity / parental benefits	Data required	Data required	Data required	Policy and uptake; protect privacy
Other statutory benefits where applicable	Data required	Data required	Data required	Policy / records
Health and safety training hours	Data required	Data required	Data required	Attendance records
Skills / career training hours	Data required	Data required	Data required	Training records
Performance review coverage	Data required	Data required	Data required	HR system
Grievances received / resolved	Data required	Data required	Data required	HR grievance register

Occupational health and safety

Indicator	Employees	Workers / contractors	Total	Prior year	Evidence / definition
Safety system coverage	Data required	Data required	Data required	Data required	Sites / certifications
Hazard identification / risk assessments	Data required	Data required	Data required	Data required	HIRA / JSA
Lost-time injuries	Data required	Data required	Data required	Data required	Incident register
Fatalities	Data required	Data required	Data required	Data required	Investigation records
High-consequence injuries	Data required	Data required	Data required	Data required	Incident register
LTIFR	Data required	Data required	Data required	Data required	Disclose formula and hours
Near misses reported	Data required	Data required	Data required	Data required	HSE system

Indicator	Employees	Workers / contractors	Total	Prior year	Evidence / definition
Occupational diseases / medical surveillance	Data required	Data required	Data required	Data required	Occupational health records
Emergency drills / corrective actions	Data required	Data required	Data required	Data required	Drill reports

Principle 5 — Human rights

Indicator	Employees	Workers / value chain	FY25–26 result	Remediation / evidence
Human-rights policy coverage	Data required	Data required	Data required	Approved policy
Human-rights training coverage	Data required	Data required	Data required	Training logs
Sites assessed for human-rights risks	Data required	Data required	Data required	Assessment register
Child labour cases / complaints	Data required	Data required	Data required	Confidential case register
Forced labour cases / complaints	Data required	Data required	Data required	Confidential case register
Sexual harassment cases / complaints	Data required	Data required	Data required	POSH records; confidentiality
Discrimination / harassment cases	Data required	Data required	Data required	HR / ethics records
Minimum wage / wage payment complaints	Data required	Data required	Data required	Payroll / contractor audits
Remediation completed	Data required	Data required	Data required	Case closure records

Principle 4 — Stakeholder engagement

Stakeholder group	Channel	Frequency	Issues raised	Response / outcome	Vulnerable groups included?	Evidence
Employees / workers	Data required	Data required	Data required	Data required	Data required	Minutes / surveys
Local communities	Data required	Data required	Data required	Data required	Data required	Community logs
Customers / project owners	Data required	Data required	Data required	Data required	Data required	Review minutes
Suppliers / subcontractors	Data required	Data required	Data required	Data required	Data required	Supplier meetings
Regulators / authorities	Data required	Data required	Data required	Data required	Data required	Compliance records
Investors / lenders / others	Data required	Data required	Data required	Data required	Data required	Engagement records

Principles 1, 2, 7, 8 and 9 — indicator registers

Principle 1 — Ethics, transparency and accountability

Indicator	FY25–26	FY24–25	Evidence / owner
Ethics / NGRBC training programmes	Data required	Data required	Compliance / HR
Board members covered by ethics training	Data required	Data required	Board training records
Employees covered by ethics training	Data required	Data required	LMS / attendance
Workers / contractors covered	Data required	Data required	Site records
Corruption / bribery complaints received	Data required	Data required	Whistleblower register
Substantiated / closed / pending cases	Data required	Data required	Case management

Indicator	FY25–26	FY24–25	Evidence / owner
Director / KMP conflict-of-interest cases	Data required	Data required	Declarations register
Fines / penalties related to corruption	Data required	Data required	Legal / Finance
Corrective actions / control enhancements	Data required	Data required	Compliance reports

Principle 2 — Sustainable and safe products/services

Indicator	FY25–26 result	Method / evidence
Products/services subject to LCA / equivalent assessment	Data required	LCA reports and boundaries
Material environmental / social impacts identified	Data required	Assessment / risk register
EPR obligations and compliance, if applicable	Data required	Registration / returns
Recycled / reused inputs by material	Data required	Procurement / material records
Materials / products reclaimed or recovered	Data required	Recovery / disposal records
Supplier sustainability screening	Data required	Supplier assessments / contracts
Quality / safety nonconformities and corrective actions	Data required	QA/QC register

Principle 7 — Responsible public-policy engagement

Association / forum	Membership type	Purpose / policy topics	Fees if tracked	Positions / transparency controls
Data required	Data required	Data required	Data required	Data required
Data required	Data required	Data required	Data required	Data required

Principle 8 — Inclusive growth and equitable development

Indicator	FY25–26 result	Evidence / owner
Social impact assessments conducted	Data required	SIA reports
Projects with ongoing rehabilitation / resettlement	Data required	R&R register
Households / persons affected and assisted	Data required	Project records; privacy safeguards
CSR projects and beneficiaries	Data required	CSR reports
Local employment / local procurement	Data required	HR / procurement data
Community development outcomes	Data required	Outcome assessment
Affected community complaints / resolution	Data required	Grievance register

Principle 9 — Customer value and responsibility

Indicator	FY25–26 result	Evidence / owner
Customer complaints received / resolved / pending	Data required	CRM / contract records
Service quality / safety incidents	Data required	Quality / safety register
Recalls / withdrawals, if applicable	Data required / NA with reason	Incident / legal records
Customer satisfaction assessment	Data required	Survey / review reports
Data privacy complaints / breaches	Data required	IT / InfoSec
Cybersecurity incidents affecting customers	Data required	Incident response register
Responsible marketing / customer information	Data required	Policy / review records

Leadership Indicators — consolidated register

Leadership Indicators are generally voluntary under the BRSR framework unless another applicable rule requires disclosure. Complete those relevant to MEIL and supported by reliable data.

Principle	Leadership themes to assess	FY25–26 disclosure	Evidence / owner
P1	Value-chain ethics awareness; advanced integrity training; responsible lobbying	Data required	Compliance / Procurement
P2	Life-cycle assessment; circularity; sustainable design; supplier improvements	Data required	Engineering / Procurement / ESG
P3	Well-being; mental health; career development; inclusion; value-chain workforce	Data required	HR / HSE
P4	Stakeholder engagement outcomes and feedback-to-action	Data required	Stakeholder relations
P5	Human-rights impact assessment, due diligence and remediation	Data required	Legal / HR / Procurement
P6	Water stress, climate risks, transition, renewable energy, restoration	Data required	EHS / Risk / Operations
P7	Transparent public-policy positions and association engagement	Data required	Legal / Corporate Affairs
P8	Social impact mitigation, resettlement, inclusive growth outcomes	Data required	CSR / Projects
P9	Customer education, accessibility, privacy and responsible marketing	Data required	Customer service / IT / Legal

BRSR Core — KPI and evidence register

BRSR Core is a subset of KPIs under nine ESG attributes. Confirm FY 2025–26 applicability, assurance/assessment, value-chain coverage and the exact applicable SEBI framework / industry standards with the Company Secretary.

Attribute / KPI area	Metric	FY25–26	Unit / calculation	Evidence / assurance
GHG footprint	Scope 1 emissions	Data required	tCO■e	Fuel data / factors
GHG footprint	Scope 2 emissions	Data required	tCO■e	Energy bills / factor
GHG footprint	Scope 3 / applicable value-chain metrics	Data required	tCO■e	Category inventory / partner data
GHG footprint	GHG intensity / PPP-adjusted intensity if applicable	Data required	Applicable formula	Finance / GHG inventory
Water footprint	Water consumption / intensity	Data required	kL / applicable intensity	Meter / water records
Energy footprint	Energy consumption / intensity	Data required	GJ / applicable intensity	Bills / fuel logs
Circularity	Waste generated / recovered / disposed	Data required	tonnes / applicable rates	Waste manifests
Employee well-being	Gender diversity / wages / applicable KPIs	Data required	Applicable unit	HR / payroll
Safety	Fatalities / injury metrics	Data required	Count / rate	HSE records
Inclusive growth	Job creation in small towns / applicable KPI	Data required	Applicable unit	HR / project locations
Fairness / openness	Applicable supplier / business openness metrics	Data required	Applicable unit	Procurement / Finance
Women’s economic participation	Gross wages paid to women / applicable metric	Data required	■ / ratio	Payroll records

Value-chain group	Coverage method / threshold	Partner count	Data requested	Data received	Measured / estimated	Assumptions / gaps
Upstream suppliers	Confirm applicable rule; assess 75% purchase-value scope if applicable	Data required	Relevant BRSR Core KPIs	Data required	Data required	Data required
Downstream partners / customers	Confirm applicable rule; assess 75% sales-value scope if applicable	Data required	Relevant BRSR Core KPIs	Data required	Data required	Data required

Data governance, evidence and calculation traceability

Data lineage

MEIL Main Admin → Subsidiary Supervisor → Business Unit Supervisor → Project Supervisor → Project Users. Data flows upward from user submissions to project verification, BU consolidation, subsidiary consolidation, corporate consolidation and BRSR reporting. Use the actual legal-entity structure approved for the reporting boundary; legal subsidiaries and business units should not be assumed to map one-to-one.

Data group	Minimum fields
Identity / boundary	Entity, subsidiary, BU, project/site IDs; location; reporting boundary; reporting period
Indicator	Indicator ID; Section / Principle; scope/category; parameter; definition; unit; applicability
Activity data	Quantity; unit; activity date; reporting period; source; measurement method; estimate flag
Calculation	Factor value/unit/source/version/year/geography; formula; conversion; raw and final result
Evidence	Evidence ID; original/system filename; file type/size; uploader/time; source reference
Verification	Submitted by/at; reviewer; decision/comment; corrections/resubmissions; approval timestamp
Consolidation	Included/excluded submission IDs; exclusion reasons; calculation run; totals by scope/category
Audit trail	Created/updated by; timestamps; prior values; reason for change; approvals/version history

Evidence filename convention

Recommended:
[MEILID]_[SUBID]_[BUID]_[PROJECTID]_[USERID]_[PARAMETERID]_[TIMESTAMP]_[SEQUENCE].[EXTENSION]. Example: MEIL_SUB001_BU003_PRJ007_USR005_S1-DIESEL_20261008_143522_01.pdf. This is a naming example only. Keep original filename separate; Evidence ID is the database key. Do not rename the evidence record during consolidation or forwarding.

Emission-factor register

Factor ID	Activity	Value	Unit	Gas / GWP basis	Source / version	Year / geography	Effective dates	Approved by
EF-001	Diesel combustion	Data required	kg CO■e/L	Data required	IPCC / national approved source	Data required	Data required	Data required
EF-002	Grid electricity	Data required	kg CO■e/kWh	Data required	Applicable CEA version	India / grid region	Data required	Data required
EF-003	Purchased goods / services	Data required	Per unit / spend	Data required	Supplier-specific / approved database	Data required	Data required	Data required
EF-004	Waste treatment	Data required	Per kg / tonne	Data required	Approved waste-route source	Data required	Data required	Data required

Data-quality controls

Confirm completeness across all in-scope sites, projects, entities and relevant categories.

Validate units, dates, evidence, source documents and reasonable value ranges.

Prevent duplicate invoices, meter readings, fuel logs and supplier records.

Reconcile data to finance, procurement, HR, HSE, utility and waste records.

Document estimates, uncertainty, exclusions, assumptions and recalculations.

Report gross emissions, removals, offsets and avoided emissions separately.

Preserve original records, reviewer decisions and change history.

Protect confidential workforce, complainant, customer and supplier information.

Final reporting checklist and sign-off

Control item	Owner	Status	Evidence / comments
Reporting boundary and legal entities confirmed	Company Secretary / Finance	Pending	Data required
BRSR applicability for FY25–26 confirmed	Company Secretary / Legal	Pending	Data required
Section A figures reconciled to audited records	Finance / HR / Company Secretary	Pending	Data required
Section B policies and governance responses approved	Board / Compliance / ESG	Pending	Data required
All nine principles reviewed by owners	Principle owners	Pending	Data required
Scope 1 inventory completed / reconciled	EHS / Energy / Projects	Pending	Data required
Scope 2 method and factors validated	Energy / ESG	Pending	Data required
Scope 3 screening / categories completed	Procurement / Logistics / ESG	Pending	Data required
Water, energy, waste and pollution reconciled	EHS / Facilities / Projects	Pending	Data required
Workforce, safety and human-rights data validated	HR / HSE / Legal	Pending	Data required
CSR, community and stakeholder data validated	CSR / Projects	Pending	Data required
BRSR Core applicability and assurance confirmed	Company Secretary / assurance provider	Pending	Data required
Management review and sign-off complete	Authorized leadership	Pending	Data required
Public disclosure proofread and evidence archived	ESG Coordinator / Legal	Pending	Data required

Role	Name	Approval reference / signature	Date
Prepared by — ESG/BRSR Coordinator	Data required	Pending	Data required
Reviewed by — Finance / Company Secretary	Data required	Pending	Data required
Reviewed by — EHS / HR / Procurement owners	Data required	Pending	Data required
Approved by — authorized management / Board as applicable	Data required	Pending	Data required
Assurance / assessment provider if applicable	Data required	Pending	Data required
